WORLD WANTS WORK WONDERS

**NEW YORK'S PROUD CAVALRYMEN NOW ONLY DOUGH BOYS**

(Special From a Staff Correspondent of The Evening World.)

SPARTANBURG, R. C., Oct. 19.—The boys of the 1st New York Cavalry and Squadron A find themselves to-day mere "dough boys," as in the

past they were pleased to term the lads of the infantry. They are bidding final farewell to their horses, and the parting is a sad one, for many of the former cavalrymen have had the same mounts for several years, and only a man who has been in a mounted organization knows the affection that grows between man and beast.

When the former cavalrymen had taken their horses to the remount depot it was only with an effort that they could leave their pets behind. There was a great bestowing of lump sugar, and several of the boys clasped their old mounts about the neck and didn't care a hang whether they were seen to weep a bit or not. The new arm in reorganization is ruthless in its workings and sentiment counts not a whit.

The officers and men of the old 1st Cavalry are being split up among three units. The 106th Machine Gun Battalion will claim 550 of the enlisted personnel and the 402d Trench Mortar Battery, the first of its kind to be organized in this country, takes 181. As members of these two units the former cavalrymen meet with another jolt. They are to be deprived of their yellow hat cords, which in the past they have ever regarded as badges of honor, and will be given the blue hat cords of infantrymen. It seems like the crack of doom to the proud cavalrymen of yesterday. The 102d Ammunition Train will also claim a number of officers and men of the old regiment.

Proud Squadron A is but a memory to-day. Its mounts are gone and the organization is now the 105th Machine Gun Battalion, and the yellow hat cords will be replaced in a few days with the blue cords of the "dough boys."

The final transfers of men from second line regiments to 27th Division units are being made to-day. Hereafter the big fighting machine will be able to go on with its programme of training without interruption. Goldsmith's deserted village has nothing on the camps of the 12th and 71st Regiments. There are not enough men left in either of these camps to make a decent sized company. The historic commands have been drained of their men that more fortunate regiments in the first line might get their war quotas. The second line commanders are awaiting anxiously to know what final disposition is to be made of their skeletonized units. There is some talk of filling up certain of the regiments with men from other organizations not in the 27th Division, but it seems to be the general opinion that draft men will be used to fill the vacant ranks.

The one big topic of discussion in camp is the coming court martial of Capt. Howard E. Sullivan of D Battery, the 2nd Field Artillery. Capt. Sullivan, charged with having given orders that led to the hazing of Private Otto Gottschalk, will be brought to trial next Wednesday.

As a rule it is the custom to hold court martial in private, but it was stated to-day by an officer in authority that Capt. Sullivan's hearing will likely be a public one. It is felt that the army suffers from such disclosures as have been given prominence in the Sullivan case, and that

In an open trial it will be shown that there is not the slightest intention to cover up any one. There are but two outcomes to the trial of an officer charged with conduct unbecoming an officer and a gentleman. He is either acquitted of the charge and restored to duty, or found guilty and dismissed the service.

Several Texas cowboys are busy to-day over in the remount depot seeking altitude records on the backs of "green" horses from the West. There are now over 2,000 horses in the big corrals, with more than double that number yet to arrive. Soldiers who have been witnessing the horse-breaking work have confessed that the sight has made them more enthusiastic over their future chances in the trenches.

**New Parisian Resort on Broadway.**

The new Bustanoby's, at 50th Street and Broadway, had its formal opening last night, attended by a large and notable gathering. This establishment is on the site of the former Montmartre. This will be an all-day resort, commencing with a business men's lunch at 12 noon; tea dancers, 3 to 5 P. M. daily; dinner 5:30 to 9, and dancing from then

on till closing. Erdedy's orchestra furnishes the music.

**Better Health From Internal Baths**

Miss Frances Herrod writes Dr. Chas. A. Tyrrell of New York as follows: "I am very glad to tell you that I am more than pleased with the results obtained from the use of the 'J. B. L. Cascade,' and am in better health than I have been in years."

This is but one of thousands of the same kind of letters received by Dr. Chas. A. Tyrrell of New York, the inventor of the "J. B. L. Cascade."

By a purely natural process of properly using warm water, the "J. B. L. Cascade" removes all the poisonous waste from the lower intestine, which physicians agree is the cause of 95% of all human ailments. All Liggett's-Ritter-Hegeman Drug Stores in New York and Brooklyn have filled an enormous demand for "J. B. L. Cascade" in the past few years, and will show and explain it to you on request. A free and interesting booklet on Internal Bathing—"Why Man of To-Day is Only 50% Efficient"—can be obtained at their store free of any cost.—Advt.
